

DRAFT OPEN SPACES STRATEGY QUESTIONNAIRE :

The Kibworth Joint Recreation Board are committed to ensuring that the quality green spaces are seen as an essential part of the village and adopting a consistent and effective approach to their ongoing maintenance and development. This is so that they can offer variety to all age groups in the village, stimulating play and wellbeing. They should not only provide activity and recreation but also quiet areas for people to sit and relax, and also encourage biodiversity.

The purpose, vision and scope of having an Open Space Strategy for the Kibworths, therefore, was to set out 10-year aspirational plans for all the open spaces. The Joint Recreation Board have also looked at the many activities that the parks are used for on a daily basis and have recognised that there were several developments that needed to be considered.

Public consultation is an important part of this process so we will be very grateful if you can give us your feedback by answering the questions below:
